MODIFICATION TO TENNIS

In D. Woolnough's 'Tennis' game in the December issue, I found that the loser's score would not reset to zero after each completed set.
To reset the scores:-

CHANGE: 02DA to 10A0, 02DC to 10B0, 02DE to 0000, 02E0 to 0000,
02FE to 10A8, 0300 to 22CC, 0302 to 6B00, 0304 to 22CC,
0306 to 7D01, 0308 to 6E00, 030A to 12F0, 033A to 0000,
033C to 0000, 033E to 0000.

THEN ADD:

0090	75FE	7502	D564	00EE	0000	0000	0000	0000
00A0	D015	3E05	230C	00EE	D015	3B05	2340	00EE
00B0	22F0	6E00	22F0	7901	6B00	12CC	0000	0000

DREAMER

No.18 MARCH,1982.

This is definately the VERY LAST ISSUE of the 'Dreamer'. There are three reasons for its existance.

Firstly, we wanted to explain to you all why the January issue was so late. Well, the mail strike in December meant that we did not receive any orders until after Christmas, when we had anticipated having them all back by then. They were still coming in in the middle of January, so we put off sending the newsletter to the printer until the end of the month, only to discover that the printer had gone on holidays. More delay! Eventually though, we got it back, and away it went, and we heaved a sigh of relief, as our telephones by that stage were running hot with 'where is it?' enquiries. Thank you, all those who rang us, for being so understanding of our problems, they really were beyond our control. But then, the phones started to ring again. There was a major boo-boo in the newsletter. Our printer had put one page through twice, and left another one out altogether.

So, reason No.2 is to send you the attached page, which is a replacement for the second and third pages of the 'Calculator' program. The offending page in the January newsletter is headed 'Calculator Program', and has a paragraph titled 'More Titbits', then the program listing from 0080-00FF, 0200-048F, on the front, and the last page of 'Dreamsound Composer' plus '500 Baud Cassette' on the back. This should be replaced with the attached page, which is identical on the front, but has 'Calculator Program', then the listing from 0490-064F, then 'Meteor Storm', explanation and listing from 0080-00FF, 0200-027F, on the back.

The third reason is to tell you that the V.I.P. USERS GROUP have advised us that their subscription period for DREAM USERS will commence in May,1982. This will give them time to check out their programs to ensure that they will run on a DREAM. (See their ad.)

Just before this issue was completed, we received a modification to the 'Tennis' program, so we decided you had better have that as well.

Happy DREAMing,

Graeme and Garry.

METEOR STORM (0080 - 0700)

D. TOON.

Your Photon-converters are damaged and can only put out enough energy to power either your engines or your shields.

You have to pilot your ship through the meteor storm, using keys 1 LEFT, 2 UP, 0 DOWN, to control your progress. Remember you have to STOP to put the shields on if you can not dodge the meteors.

Once you reach the Mother Ship on the left of the screen, you have to dock exactly. Once started, there is no return!
